

The Body Shop Body Focus Cellulite Serum (RM115)

The ingredients: It contains an active natural technology with amino acids and caffeine; an active ingredient from the Indian makandi mint; vitamin B and C.
How it works: Through an innovative sustained technology, it ensures the skin receives maximum exposure to the active ingredients, all day long, for the best possible results. As it is working all day long, it aims to improve the appearance and texture of dimpled skin for firmer, smoother and more toned thighs.

Sisley Celluli-Pro Slimming Complex (RM530)

The ingredients: Rice Peptide extract, Bitter Orange extract, essential oil of cedar, Arnica and Butcherbroom extract, caffeine, soy extract, Rhattany extract and a blend of skin-repair, moisturising agents.

How it works: It's a slenderising skin care formula that acts on dimpled skin. The Rice Peptide extract slows down the accumulation of fatty deposits as Bitter Orange reduces water retention and Rhattany acts to firm and tighten skin. Just work the cream twice a day in deep motions towards the heart. It doesn't leave the skin feeling sticky or oily, just velvety smooth without the cellulite!

Elizabeth Arden Ceramide Plump Perfect Firming Body Soufflé (RM213)

The ingredients: Argireline, glycerine, soy sterols and Ceramide Triple Complex.

How it works: Argireline, a hexapeptide, plumps up skin to reduce the visibility of fine lines and wrinkles as soy sterols help firm up skin by promoting natural collagen. Its Ceramide Triple Complex and vitamins work on hydrating and retexturising skin. Soon you'll have a firmer, well-toned body.

Clarins Stretch Mark Control (13M762)

The ingredients: Vegetal oils – olive, coconut and palm, Crowberry extract and Centella Asiatica extract.

How it works: This cream helps to reduce and prevent stretch marks by reinforcing the skin's suppleness and resistance to stretching. Its combination of three vegetal oils increases skin's elasticity as Crowberry extract slows down stretch mark formation by protecting collagen and elastin fibres. Then, Centella Asiatica extract helps the skin repairing agents stimulate collagen and elastin regeneration. All these actions come together for smoother skin with lighter or almost invincible stretch mark signs!

Beaubelle Purify Body Elixir Essences (RM188)

The ingredients: Olive, apricot kernel, sesame, vitamin E, rosemary leaf extract, lemongrass, rosewood, eucalyptus peppermint, lime and lemon myrtle.

How it works: This cocktail of 100% pure, natural plant essences with vitamins and minerals is able to lift, tighten and tone while eliminating toxins from the body. Plus, the Quartz crystal in every bottle of the essence is a definite boost to its potency.

Where to get it: At any Beaubelle Skin and Body Care Day Spas

Texenergy Bodysuit (RM800)

The material: It is a hypoallergenic garment with fibres of silicon, zinc and copper interwoven in soft fabric.

How it works: It is based on the principles of metal therapy that involves placing metals on various parts of the body. Copper and zinc work together to restore microcirculation and remove accumulated liquids and fat. The product claims to bring about visible slimming effects after four weeks and after eight weeks, skin is firmer, with a reduction in cellulite appearance.

Where to get it: Call 79810970 or email texenergy@panmedic.com
